

Awardees of the Best Oral Presentation

Nguyen Pham Hong Dao (Nagaoka University of Technology, Japan)

“Enhancement of anaerobic degradation of acetone in an UASB system by feeding 2-propanol”

Lo Yan Tung (The University of Tokyo, Japan)

“Tannic acid exfoliated graphitic carbon nitride thin-film nanocomposite membrane for the removal of emerging pollutants in potable water reuse”

Yan Ying Tan (Universiti Malaya, Malaysia)

“Hydrothermal conversion of waste human hair as a biomaterial for wastewater treatment”

Saurabh Dwivedi (CSIR Institute of Minerals and Materials Technology, India)

“Impact of Microplastics on Lab-scale Constructed Wetland Treatment Performance”

Brily Najmussabah (Universitas Indonesia, Indonesia)

“Modified graphene oxide-ZrO₂/TiO₂ ceramic membrane for organic and inorganic substances removal in seawater”

Rizaldy A. David (University of the Philippines Los Baños, Philippines)

*“Cadmium concentration in small-eyed squillid mantis shrimp (*Miyakea nepa*, Latreille, 1828) from Manila Bay, Philippines: Potential bioaccumulation and health risks”*

Awardees of the Best Flash Talk

Maria Anjelica P. Ancheta (Asian Institute of Technology, Thailand)

“Indicators for resilience assessment of urban water supply sources and urban waterways due to climate change and extreme events”

Pavithira Sathinathan (Universiti Malaya, Malaysia)

“Food and beverage wastewater treatment through microalgae cultivation”
